

Special Issue

Polymeric Materials for Flexible Electronics

Message from the Guest Editors

We are excited to announce the launch of a Special Issue entitled "Polymer Semiconductors for Flexible Electronics" in the esteemed journal *Polymers*. This Special Issue aims to bring together cutting-edge research and comprehensive reviews that explore the latest advancements in the field of polymer-based semiconductors and their applications in flexible electronics. **The scope of this Issue encompasses a wide range of topics, including, but not limited to, the following:**

- Development and characterization of new polymer materials with enhanced electrical
- Processing techniques and manufacturing methods for polymer semiconductors in flexible electronics. We invite researchers, academics, and industry professionals to contribute their latest findings and insights to this Special Issue. Your contributions will significantly advance the understanding and development of polymer semiconductors for the next generation of flexible electronics.

Guest Editors

Dr. Hongsheng Xu

Dr. Lin Shi

Dr. Shi-Ming Wang

Deadline for manuscript submissions

15 December 2025

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
