New Advances in Polymer-Based Surfactants

Message from the Guest Editors

This Special Issue focuses on the recent advances, challenges, and fundamental aspects of the synthesis, characterization, properties, and application of polymer-based surfactants as a functional material used in oilfields. We aim to bring together researchers in the aforementioned fields to highlight the current development of new techniques, exchange the latest understanding of novel functional polymeric or surfactant active materials, present advanced concepts for design and preparation, and facilitate collaboration between researchers in different fields. We welcome the submission of both original research and review articles.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
