

Special Issue

Polymers for Dental, Oral, and Craniofacial Applications

Message from the Guest Editor

Polymers have become indispensable in modern dentistry, due to their exceptional mechanical strength, thermal stability, and biocompatibility. Their multifunctionality and adaptability have enabled a broad spectrum of applications, including the development of innovative materials for dental restorations, implants, digital and regenerative dentistry, and targeted drug delivery systems. This Special Issue will present cutting-edge research on the design, synthesis, characterization, and clinical applications of polymers in dental, oral, and craniofacial sciences. Researchers, scientists, and clinicians are encouraged to contribute to this Special Issue with original research papers, clinical trials or reports, reviews, and meta-analyses. Our main objective is to enhance our understanding of relevant topics, ultimately contributing to advancing essential aspects of modern dentistry.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
