

Special Issue

Characterization and Application of Block Copolymers

Message from the Guest Editors

This Special Issue will deal with the synthesis, characterization, and application of a special class of materials, namely, block copolymers. They are generally formed by grouping chemically distinct monomer units as distinct blocks along a polymer chain. This specific class of copolymers is found to have many interdisciplinary technological applications. This Issue specifically focuses on novel experimental techniques/methods for the synthesis and characterization of novel/hybrid co-polymeric materials. The practical technological applications of block copolymers in various areas, such as chemistry, materials sciences, medicinal and biological applications, etc., will also be contemplated. Full research articles, short communications, and review articles on the topic will be considered.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
