

Special Issue

3D Biofabrication Technologies

Message from the Guest Editors

Additive manufacturing, more commonly known as 3D printing, has been at the forefront of manufacturing research for the past few decades. There have been many advances in basic printing techniques, materials, and post-processing schemes. In recent years, there have been many critical developments in the field of 3D printing, and the convergence of additive manufacturing and printing materials is significant for the advancement of person-specific products in the pharmaceutical and medical sphere. The spectrum of materials that can be printed has also increased, allowing researchers to print a variety of materials including live cells, biopolymers, and bio-based composites. This Special Issue will deal with the main features and recent advances, as well as upcoming trends, in 3D biofabrication technologies.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
