

Special Issue

Advanced Biodegradable Polymers for Drug Delivery: 2nd Edition

Message from the Guest Editor

Biodegradable polymers have important properties which make them very useful for the preparation of different drug delivery systems. The wide range of forms of drugs, as well as their possibility to coat or enclose active substance inside polymers, make them powerful pharmaceutical tools. The encapsulation of active substances in polymeric particles, as well as the preparation of hydrogels or eye preparations, make them important excipients. Also, the modification of structure or complex (mixed) preparations plays a new role and brings novel solutions in drug delivery systems. This Special Issue aims to publish articles concerned with the use of new compositions of biodegradable polymers in the field of pharmaceutical drug development and their current or potential applications. Authors are invited to submit both original research and reviews.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
