

Special Issue

Natural Fiber-Based Green Materials, Second Edition

Message from the Guest Editor

This Special Issue intends to provide a platform for discussions about the latest innovations in the use of bio-based materials. Continuous development in the field of bio-based materials has resulted in the use of several natural fibers. Research on green materials is currently widespread, which is evident through numerous research undertakings globally resulting in a large number of original publications. In this Special Issue, researchers from both academia and industry are invited to submit their latest studies on natural fiber-based green materials. The scope of this Special Issue includes research on natural fibers and the production of natural fiber composites, interfacial studies between natural fibers and polymers, and the characterization of these fibers and their composites (physical, chemical, mechanical, thermal, and morphological properties).

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
