

Special Issue

New Nonwoven Process

Message from the Guest Editors

This Special Issue of *Polymers* invites contributions addressing several aspects of new nonwoven processes, such as the forming mechanism of superfine fibers, nanofibers, and bicomponent fibers, the experimental means and methods, fiber modification, characterization methods of physical and chemical properties, simulation of new nonwoven processes, interface design and properties of nonwoven composites, intelligent manufacturing in new nonwoven processes, etc. The above list is only indicative and by no means exhaustive, and any original theoretical or review article on new nonwoven processes is welcome. We hope that these contributions will involve the application of new nonwoven processes in environmental protection technology, clean energy, bioengineering, and smart wearables.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
