

Special Issue

Advances in Composite Materials: Polymers and Fibers Inclusion

Message from the Guest Editor

The polymer inclusion technique is used to develop new composite materials. This Special Issue aims to collect original research papers and reviews on the topic of “*Advances in Composite Materials: Polymers and Fibers Inclusion*”, comprising novel approaches, new methods, related concepts, solutions from renewable resources, alternatives to achieve superior performance and lower costs, and the development of new fiber and polymer composites, as well as mechanisms, applications, and technologies related to this theme in engineering science. **Keywords:** Engineering, Materials, Composites, Synthetic Fibers, Natural Fibers, Recycled Materials, Residues, Polymers, Biopolymers, Additives, Reinforcement, Stabilization, Sustainability, Experimental Analysis, Modelling/Simulation, Life Cycle Analysis (LCA), Renewable Recourses, Properties.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
