

Special Issue

Processing, Modification and Application of Lignin

Message from the Guest Editor

With the current depletion of fossil reserves and the ongoing environmental crisis, scientists have shifted their focus towards the development and utilization of bio-renewable resources. As a kind of sustainable and natural biopolymer with low cost and great potential, lignin has attracted much attention from researchers around the world. However, the high-value-added products derived from lignin are limited, mainly due to its complex and uneven structure as well as low reactivity. To valorize lignin with commercial importance, a Special Issue entitled “Processing, Modification and Application of Lignin” will be published in the open access journal *Polymers* (ISSN 2073-4360; IF: 4.967, Q1 in the WoS category of Polymer Science). Any paper focusing on the utilization of lignin is welcome to be submitted.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
