# Special Issue

# Functional Polymers in Energy Conversion, Management, and Storage

## Message from the Guest Editors

The scope of this Special Issue encompasses a wide range of topics related to functional polymers in the energy sector, including but not limited to: Solar energy conversion: emphasizing novel approaches in solar cell technology, interfacial evaporation, and advancements in solar energy harvesting using functional polymers; 22 Mechanical energy harvesting: highlighting advancements in the field of mechanical energy capture, including friction-based nanogenerators and other polymer-based devices for energy harvesting; ☑3☑ Functional polymers in LED technology: addressing the role of polymers in light-emitting diodes (LEDs) for energy-efficient lighting solutions; management: exploring innovative polymers and composites for efficient thermal management in electronic devices, aerospace, and MEMS; development and optimization of energy storage technologies, with a focus on lithium-ion batteries and other promising systems employing functional

# Polymers

an Open Access Journal by MDPI

Impact Factor 4.9 CiteScore 9.7 Indexed in PubMed

# **About the Journal**

## Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

#### Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

#### **Author Benefits**

## **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### **Journal Rank:**

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
