

Special Issue

Polymeric Materials for Solar Cells and Energy Storage

Message from the Guest Editors

Polymeric materials and their corresponding electronic devices, including perovskite solar cells, organic solar cells, polymer solar cells and energy storage devices, have attracted considerable research attention because of their inherent merits of inexpensiveness, solution processability, flexibility, and stretchable electronics. In recent decades, extensive research has been conducted to explore the mechanisms of these devices and improve their performance; however, further investigation is still necessary to meet the requirements for various practical applications. This Special Issue focuses on, but is not limited to, the exploration of the mechanisms of polymeric materials for solar cells and energy storage, as well as the further enhancement of their electrical performance, device design, and fabrication processes.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
