

Special Issue

Fiber Reinforced Polymer Composites: Recent Progress and Recycling

Message from the Guest Editors

Based on recent studies, this Special Issue will provide an overview of FRPs, their characterization, classification, and main advantages relating to their physical and mechanical properties. The use of natural materials as constituents in the combination of matrix and reinforcement materials is necessary to create a material that is degradable as well as environmentally friendly.

In addition, a complete review of the different techniques that have been developed to recycle FRP is presented. The issue also focuses on the reuse of valuable products recovered via different techniques, focusing on the way that fibres have been reincorporated into novel materials and applications and the main technological issues encountered in these processes

Guest Editors

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
