

Special Issue

Multifunctional Polymers and Their Composites and Structures: Design, Preparation and Properties

Message from the Guest Editor

Over recent decades, multifunctional polymer materials and their composites and structures have attracted considerable attention in academic and industrial communities. This Special Issue aims to present recent advances in various polymer materials, as well as their composites and structures, while also discussing potential research directions to promote their further development. The topic of this Special Issue is quite extensive, including the design, preparation, properties, characterization, functionalization, and so on of polymer materials and their composites and structures. Original research articles and reviews are all welcome.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
