

Special Issue

Recent Advances in Flame Retardant Polymers

Message from the Guest Editors

Polymers have found wide-ranging applications in diverse areas of human life since their invention. However, the flammability of many polymers has hindered their use in emerging fields. To address this issue, the addition of additive or in situ reinforcing flame retardants, and the development of inherently flame-retardant polymers and coatings have been considered as effective strategies. This Special Issue aims to showcase the latest research and developments in the field of flame-retardant polymers, providing a platform for researchers and experts to share innovative methods, novel materials, and cutting-edge technologies for enhancing polymer flame retardancy. By tackling key challenges related to fire safety, these articles will advance flame-retardant polymer technology and its applications across industries.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für
Polymermaterialien und Polymertechnologie, Universität Potsdam,
Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
