# **Special Issue**

# Polymers for Selective Heavy Metal Removal

## Message from the Guest Editors

Heavy metal contamination in water is a major problem in both developed and developing countries. Past approaches to heavy metal filtration, such as ion exchange resins, are either ineffective or highly expensive. A highly efficient, scalable technology with minimal energetic needs for removing heavy metal ions from water would be ideal. Thus, the applications of polymers as adsorbents, extractants, collectors, and precipitants have drawn tremendous research interest. The aim of this Special Issue is to highlight the progress and fundamental aspects of the synthesis, characterization, properties, and application of polymers for the selective removal of heavy metals.

an Open Access Journal by MDPI

Impact Factor 4.9 CiteScore 9.7 Indexed in PubMed

# **About the Journal**

## Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

#### Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

#### **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

### **Journal Rank:**

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
