

## Special Issue

# State-of-the-Art Polymer Science and Technology in Mexico

### Message from the Guest Editors

Technological and scientific advances are gaining relevance in the emerging countries of Latin America. In Mexico, basic and frontier research regarding polymers is solid and follows world trends in the development of new materials that respond to the needs of today's society. This Special Issue is intended to integrate the efforts of Mexican colleagues in developing Polymer Science and Technology. We welcome original papers and review articles; the scope of this collection includes, but is not limited to: Obtention (extraction methods; synthesis by conventional and irradiation strategies)

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
