

## Special Issue

# The Application of Fiber Reinforced Polymeric Composites as Structural Battery and Supercapacitor

### Message from the Guest Editor

Fibre-reinforced polymeric composites (FRPCs) have shown to be promising in the development of structural batteries and supercapacitors. These energy storage devices have the potential to revolutionize the industry by combining the structural support of FRPCs with the energy storage capabilities of batteries and supercapacitors. This proposal aims to investigate the development and application of FRPCs in the field of structural batteries and supercapacitors. The project will explore the manufacturing and design considerations for FRPC-based energy storage devices, as well as their mechanical and electrochemical properties. Additionally, the project will evaluate the economic and environmental benefits of using FRPC-based energy storage devices in various applications.

### Guest Editor

Dr. Mohammad Saiful Islam

School of Mechanical and Manufacturing Engineering, The University of New South Wales, Sydney, NSW, Australia

### Deadline for manuscript submissions

closed (31 December 2023)

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
