

## Special Issue

# Fiber Reinforced Polymer Composites

### Message from the Guest Editor

The increasing utilization of natural or recyclable fiber-based composites across diverse industries, coupled with the demand for high-performance fiber-reinforced resin composites, underscores the ongoing quest for advanced materials with enhanced properties. This demand extends across a wide spectrum of industrial sectors, including aerospace, automotive, electronics, and construction, highlighting the multifaceted applications of these innovative materials. Consequently, research efforts aimed at optimizing mechanical attributes and developing novel applications for these composites remain critical in meeting evolving industry requirements and advancing sustainability goals. Therefore, as of the Special Issue entitled “Fiber-Reinforced Polymer Composites”, which will be published by *Polymers* this year, I invite you to submit a paper covering your recent research results on fibrous composite(s) with polymer matrix(es), taking into account your known expertise in the field of composite materials, proven by your various publications in this research area. Best regards,

---

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
