

Special Issue

Sustainable Polymeric Materials in Building and Construction, 2nd Edition

Message from the Guest Editors

With a growing emphasis in the construction industry on eco-friendly and environmentally responsible practices, this Special Issue, titled “Sustainable Polymeric Materials in Building and Construction, 2nd Edition”, aims to collate cutting-edge scientific and industrial research on sustainable polymeric materials. This Special Issue aims to significantly contribute to the ongoing global effort towards greener and more sustainable construction practices, serving as a platform for researchers, experts, and scholars whose research is focused on sustainable polymeric materials used in building and construction to share their recent findings. The editors of this Special Issue welcome contributions of original research articles, review papers, communications, and theoretical discussions pertaining to the subject matter. We extend this invitation to all those whose research may offer an advantageous contribution to the literature in this field. We look forward to receiving your valuable contribution.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
