# Advances in Polymer Based Composite Coatings II

# Message from the Guest Editor

Polymer-based composite coatings represent a class of attractive materials, as they can have multiple applications in biomedical or industrial fields. The development of such novel materials is a continuous challenge, as specific properties of coatings such as high adherence, crystallinity, temperature and corrosion resistance, or high conductivity are demanded. For these achievements, chemical synthesis methods and physical deposition techniques, together with characterization techniques, need to grow by improving their capabilities. The present Special Issue targets advances in polymer-based composite coatings generation, and characterization techniques for the most novel applications.

# Polymers

an Open Access Journal by MDPI

Impact Factor 4.9 CiteScore 9.7 Indexed in PubMed

# **About the Journal**

## Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

#### Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

#### **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

## **Journal Rank:**

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
