

Special Issue

Advanced Polymer Composites for Electrical Insulation

Message from the Guest Editor

This Special Issue on 'Advanced Polymer Composites for Electrical Insulation' has a twofold motivation of gathering original papers on the emerging and future challenges in this field, as well as reviews on recent major developments and achievements. The aim is to highlight the progresses of polymer micro-scale or nano-scale composites in terms of processability, new design and tailored structuration concepts, main electrical and thermal properties, physical and numerical modelling, impact on electrical system performances, and impact on aging and lifetime, etc.

Guest Editor

Dr. Sombel Diaham

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
