

Special Issue

Advances in Smart Polymer Materials

Message from the Guest Editor

This Special Issue focuses on recent advances in smart polymer materials, which can be responsive to an external stimulus. In recent decades, significant progress in smart polymers has been demonstrated, and successful applications in coatings, chemosensors, actuators, shape-memory materials, textiles, hydrogels, self-healing materials, etc. have already been witnessed. This Special Issue, entitled "Advances in Smart Polymer Materials", aims to provide a comprehensive collection of high-quality original research and review papers on smart polymer materials. This issue covers the synthesis, processing, manufacturing, and practical applications of smart polymer materials.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
