

## Special Issue

# Application of Polymeric Nanocomposites in Agriculture: Sustainable Solutions

### Message from the Guest Editors

The application of environmentally safe nanocomposite materials has increased massively in recent years. Thus, interest in the study of natural polymers applied to improve agriculture by reusing waste as a source of raw material has increased significantly as well. Applications can vary, such as materials for active food packaging, materials with a controlled release of pesticides or fertilizers, and nanostructures applied as reinforcement for more sustainable packaging, among others. The scope of this Special Issue includes the synthesis, processing, and characterization of novel nanocomposites based on natural polymers with potential interest in agriculture. We encourage submissions where practical applications are presented, utilizing byproducts with sustainable preparation techniques.

### Guest Editors

**Prof. Dr. Marcia Regina de Moura Aouada**

Grupo de Compósitos e Nanocompósitos Híbridos (GCNH), School of Engineering, São Paulo State University (Unesp), Ilha Solteira 15385-000, SP, Brazil

**Prof. Dr. Fauze A. Aouada**

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
