

Special Issue

Biopolymer Materials for Applications in Biochemical and Biomedical Engineering

Message from the Guest Editor

This Special Issue of the journal *Polymers* entitled “Biopolymer Materials for Applications in Biochemical and Biomedical Engineering” aims to bring together papers focused on the applications of polymeric materials and their composites. We aim to cover the entire array of biopolymers, including conventional engineering polymers, natural/synthetic biopolymers, and newly developed polymers. A range of applications, from traditional to advanced, will be covered.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
