Polymer Spectroscopy

Message from the Guest Editors

We would like to invite you to publish in a Special Issue of the journal *Polymers*, in the section Polymer Analysis and Characterization. It could be said that we live in the age of polymers, and that we are exposed to them over the course of our whole lives. Since polymers have a highly significant effect on our lives, the development of new, fast and reliable methods with a reasonable price for polymers analysis is required. Furthermore, polymers are numerous, with highly distinctive properties depending on their chemical composition, which motivates analysts on their path toward polymer analysis and the establishment of new methods. Hence, we welcome and encourage the submission of high-quality manuscripts to this Special Issue, to be disseminated worldwide.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
