Wood and Wood-Based Composites: New Frontiers in Modification, Performance, and Sustainability, 2nd Edition

Message from the Guest Editor

Wood and wood-based composites have garnered extensive attention due to their renewable, sustainable, and eco-friendly properties. With a growing global demand for sustainable development and green building materials, new technologies and approaches for utilizing these natural resources have become a focal point in both scientific research and industry.

This Special Issue, the 2nd edition, “Wood and Wood-Based Composites: New Frontiers in Modification, Performance, and Sustainability,” aims to continue compiling and showcasing the latest research findings on modification techniques and emerging applications of wood and its composites. It will explore physical, chemical, and biological methods for modifying wood and wood-based composites and how these modifications can enhance the materials’ performance, durability, and functionality. We are interested in innovative techniques that improve the materials’ resistance to microbes, fire, water, and mechanical forces.

This Special Issue will delve into the applications of these materials in construction, furniture, packaging, the automotive industry, as well as how they contribute to sustainable and eco-friendly advancements.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.8.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für
Polymermaterialien und Polymertechnologie, Universität Potsdam,
Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (Polymers and Plastics)
