

## Special Issue

# Bio-Based Polymers and Biocomposites

### Message from the Guest Editor

The continuous development in the field of bio-based materials has resulted in the use of renewable resources for the synthesis of polymers and production of composites. Research on bio-based materials is currently widespread, which is evident through numerous research undertakings globally resulting in large number of original publications. This research area is extensive and spans from the synthesis of polymers, to the production of composites and characterization and testing of these materials. In this Special Issue, researchers from both academia and industry are invited to submit their latest studies on bio-based polymers and biocomposites. The objective of this Special Issue is to provide a platform for knowledge exchange on polymer synthesis, composite production, material analysis (physical, chemical, mechanical, thermal, morphological, and interfacial), and performance of materials.

### Guest Editor

Dr. Sunil Kumar Ramamoorthy

Swedish Centre for Resource Recovery, University of Borås, 501 90  
Borås, Sweden

### Deadline for manuscript submissions

closed (15 July 2022)

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
