

## Special Issue

# Biobased and Biodegradable Polymers for Biomedical Applications

### Message from the Guest Editor

The tremendous economic development is one of the biggest achievements of the 21st centuries. However, humans are also faced with the consequent irrecoverable ecological damage. Plastic pollution is now a global crisis and generates problems at every stage from production to disposal and incineration. Biobased polymers are partially or fully obtained from biomass, or are polymers produced by living organisms. They can be categorized as biodegradable and non-biodegradable polymers. The degradation of polymers generally occurs by biochemical processes like microorganisms-involved degradation, and this is very closely related with environmental issues.

### Guest Editor

Prof. Dr. Suyeon Kim

Engineering Department, Pontificia Universidad Catolica del Peru—PUCP, Av. Universitaria 1801, Lima 32, Peru

### Deadline for manuscript submissions

closed (31 March 2022)

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für  
Polymermaterialien und Polymertechnologie, Universität Potsdam,  
Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
