

## Special Issue

# Biopolymers' Applications in the Food, Pharmaceutical and Cosmetic Industries

### Message from the Guest Editors

This Special Issue deals with research into the use of biopolymers in the agriculture, human food, health, and nutricosmetic industries. The techno-functional properties of biopolymers improve food quality and preservation, bioactive compound delivery and biodispensibility. Biopolymer-based coatings are used as a medium for the incorporation of functional compounds and biocontrol agents. Biopolymers are viable candidates to encapsulate bioactive compounds via different processes. Moreover, new biomaterials obtained from alternative sources need to be explored in terms of improving applications.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
