

## Special Issue

# Design, Manufacturing and Injection Molding of Polymeric Materials and Composites

### Message from the Guest Editors

Polymer is one of most common materials for product manufacturing. Product quality is influenced by the manufacturing process, and also greatly influenced by the design. This Special Issue will focus on design and manufacturing methodologies for polymer products. It is with great pleasure that we invite you to submit a manuscript related to design, manufacture, and injection molding for this special issue. Remarkable contributions including research articles, communications, and reviews from experts all over the world are welcome.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.
