

Special Issue

Chiral Polymers and Chiral Polymeric Particles

Message from the Guest Editors

In the history of polymer science, both natural and synthetic chiral polymers have received considerable attention and a wide range of studies have been conducted on their synthesis, conformations, and applications. Chiral polymers and chiral polymeric particles currently support many industry applications. Free chiral polymers and micro or nanosized chiral polymeric particles have many applications in various fields, such as drug delivery systems, chiral catalysts, general chemistry, biotechnology, and materials science. This Special Issue aims to highlight the recent progress in the synthesis and application of chiral polymers and chiral polymeric particles. The submitted manuscripts will be fast-track reviewed and all types of publications are invited: research articles, review articles and communications.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
