Cutting Edge Research on the Electrochemistry of Intrinsically Conducting Polymers - Celebrating the Honorary Retirement of Prof. Dr. Rudolf Holze: A Renowned Polymer Electrochemist

Message from the Guest Editors

This Special Issue is dedicated to Prof. Dr. Rudolf Holze, on the occasion of his honorary retirement, as an acknowledgment of his contributions towards understanding the electrochemistry of intrinsically conducting polymers. Research articles and review papers are welcomed on the synthesis of intrinsically conducting polymers, novel developments on understanding their electrochemical properties, along with the applications in the field of sensors, biosensors, corrosion protection, light emitting diodes, energy storage and conversion, wearable electronics, and so on.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
