

## Special Issue

# Eco-Friendly Polymeric Coatings and Adhesive Technology, 2nd Edition

### Message from the Guest Editors

We are pleased to announce the release of this Special Issue, titled “Eco-Friendly Coatings and Adhesive Technology, 2nd Edition”, following the success of its 1st edition. Coatings and adhesives are indispensable polymer materials used for modern industrial development. They are widely used in construction, aerospace, electronic information, artificial intelligence, biomedicine, and other applications. As people pay more attention to environmental protection and sustainable development, research on environmentally friendly coatings and adhesives is receiving increasing attention. For example, water-based coatings, water-based paints, photocuring resins, re-use adhesives, powder coatings, pressure-sensitive adhesives, and solvent-free adhesives have been developed and applied at high speeds. This Special Issue aims to establish a platform for the above-mentioned research on environmentally friendly coatings and adhesives. We welcome all scholars to submit

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
