

## Special Issue

# Advanced Hydrogels for Biomedical Application

### Message from the Guest Editors

Hydrogels have experienced remarkable advances in biomedical applications, owing to their unique properties that mimic human tissue characteristics. These three-dimensional, water-swollen networks exhibit high biocompatibility and tuneable mechanical properties, making them ideal candidates for drug delivery systems, wound-healing scaffolds, and tissue engineering platforms. Recent innovations encompass the development of stimuli-responsive hydrogels, capable of controlled drug release in response to specific cues, such as pH or temperature changes. Furthermore, the integration of hydrogels with bioactive molecules and cells has enabled the creation of sophisticated constructs for regenerative medicine, providing a promising avenue to address a wide array of medical challenges.

### Guest Editors

Dr. Iksung Cho

Institute for Materials Chemistry and Engineering (IMCE), Kyushu University, Fukuoka, Japan

Dr. Tooru Ooya

1. Department of Chemical Science and Engineering, Graduate School of Engineering, Kobe University, Kobe, Japan
2. Center for Advanced Medical Engineering Research & Development (CAMED), Kobe University, Kobe, Japan

### Deadline for manuscript submissions

31 August 2025

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
