

## Special Issue

# Dielectric Properties of Polymers

### Message from the Guest Editor

At present, polymer materials are widely used in various industries due to their excellent properties. Nowadays, electronic equipment is subjected to more requirements due to its superior features such as high complexity. Traditional dielectric materials cannot meet the new requirements. Polymer materials have become the preferred materials in electrical engineering due to their excellent dielectric properties. Therefore, it is necessary to study the dielectric properties of polymer materials. This mainly depends on the dielectric properties of the interface region. This Special Issue aims to collect articles and review papers on the study of polymer dielectric properties. Scholars are welcome to actively contribute.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
