

## Special Issue

# Biomechanical Properties of Polymeric Materials

### Message from the Guest Editors

Nowadays, it is possible to identify numerous biomaterials using different kinds of polymers. They can be used in various treatments, and their quality can determine prognosis in the long term. This Special Issue will include manuscripts whose main objective is to study all properties of different biomaterials that contain polymers in their components.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.
