

Special Issue

State-of-the-Art Polymer Science and Technology in Korea (2022,2023)

Message from the Guest Editors

The field of polymer science represents one of the most active and multidisciplinary research areas in Korea. Material scientists, chemists, physicists, and engineers are committed to promoting the scientific and technological advancement of polymer materials through a variety of research and development efforts at the service of the Polymer Society of Korea. This field includes polymer synthesis, functional polymers, polymer processing/composites, polymer structures and properties, molecular electronics, biomedical polymers, colloid and molecular assembly, and elastomer and fiber technologies. Examples of the contributions of Korean research to the field of polymer science can be easily found throughout global top journals and conferences. This Special Issue is devoted to the development of polymer science research in Korea. It seeks to compile original articles, review articles, and state-of-the-art research papers.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
