

## Special Issue

# Polymer Materials for Adsorption and Separation

### Message from the Guest Editor

Supramolecular polymers, which combine the advantages of traditional polymer science and supramolecular chemistry, are advanced materials constructed by reversible non-covalent interactions. In recent years, such polymers have attracted increasing attention from researchers working in the fields of supramolecular chemistry and polymer science. This Special Issue aims to explore the design, synthesis, processing, characterization, and applications of new supramolecular polymers. Considering your prominent contributions to this field, I wish to cordially invite you to submit an article to this Special Issue. Full research papers and review articles are welcomed. The scope of this Special Issue includes, but is not limited to, the topics mentioned above.

### Guest Editor

Prof. Dr. Qing Li

School of Chemistry and Chemical Engineering, Guizhou University, Guiyang, China

### Deadline for manuscript submissions

30 September 2025

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
