

Special Issue

Polymer Composites for Biomedical and Environmental Applications II

Message from the Guest Editor

Polymer composites are a special class of reinforced systems that have been known about for almost 60 years. In this issue, we would like to highlight two special areas of polymer composites. In the biomedical area, polymeric gels, block copolymers, conjugates and drug-polymer assemblies have been attracting attention for many decades. Due to the non-cytotoxic nature of polymers, the medical area has also been widely occupied by biopolymers. We also highlight both the synthetic as well natural polymers for these purposes. In water remediation, polymer composites are also drawing attention as adsorbents, hydrogels and membranes. Our aim is to accumulate some cutting-edge research papers from various domains in the world and publish about the benefits for the scientific community.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
