

Special Issue

Functional Polymeric Materials: Synthesis, Characterization and Applications

Message from the Guest Editors

Synthetic polymeric materials have greatly contributed to the development of novel, lighter, stronger and higher-thermostability materials. Along with new catalytic systems and processes, synthetic polymer chemistry is evolving rapidly towards the development of highly functional materials. In view of this goal, this Special Issue in *Polymers*, “Functional Polymeric Materials: Synthesis, Characterization and Applications”, will disseminate original ideas, concepts and developments in the field of polymer science and technology, including polymer synthesis with (multi)functional monomers, which impart specific chemical resistance/reactivity mechanisms and physical, chemical, structural, biological and/or therapeutic functions. Original articles, reviews, mini-reviews and short communications covering the latest advances in the synthesis, applications and characterization of functional polymers are welcome.

Guest Editors

Dr. Sumant Dwivedi

Prof. Dr. Mohamad Al-Sheikhly

Prof. Dr. Placido Mineo

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
