Special Issue

Design and Manufacture of Fiber-Reinforced Polymer Composites

Message from the Guest Editor

Fiber-reinforced polymer materials combine the highstrength characteristics of fiber with the formability of the matrix. Owing to its advantages, such as light weight, high performance, and multi-functionality, fiberreinforced polymer materials are widely applied in fields such as aerospace, automobiles, ships, and sports equipment. In this Special Issue, we will discuss a wide range of topics, including, but not limited to, the interface modification of fiber-reinforced polymer materials, advanced intelligent manufacturing methods for fiber-reinforced polymer materials, the design and forming of functional composite materials, the application of functional composite materials, and the properties of composite materials themselves. We hope that this Special Issue will contribute to the development of composite materials and thus highlight their significant potential.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
