

Special Issue

Innovations in Polymer Composites for Sustainable Energy Harvesting and Environmental Applications

Message from the Guest Editors

In the middle of significant advances in the last few decades regarding the incorporation of materials into polymers, a distinct class of hybrid materials has emerged, exhibiting exceptional physical properties that have profound implications in various fields, from electronics to biomaterials. Recognizing the demands of environmental imperatives, our newly proposed Special Issue, "Innovations in Polymer Composites for Sustainable Energy Harvesting and Environmental Applications", explicitly addresses the imperative for materials characterized not only by superior performance, but also by a commitment to environmental management.

This specialized collection critically analyzes advances in the incorporation of materials into polymer composites, with a focus on enlightening the strategic methodologies employed for integrating and discerning the resulting improvements in hybrid material properties. We invite you to submit contributions for this Special Issue, including full papers and reviews.

Guest Editors

Dr. Rosa Maria Ferreira Baptista
Dr. Bernardo Gonçalves Almeida
Dr. Etelvina de Matos Gomes

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für
Polymermaterialien und Polymertechnologie, Universität Potsdam,
Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
