

Special Issue

Application and Development of Conductive Polymers

Message from the Guest Editor

Conductive polymers are organic compounds that have metallic conductivity or can be semiconductors. Such materials are interesting for use in various fields of science, such as biosensors, drug delivery systems, tissue engineering. In addition, it is possible to create materials with new properties based on conductive polymers in combination with other compounds—for example, different carbon materials. This Special Issue focuses on the development, characterization, and properties of conductive polymers and their application in various fields of science. We invite researchers to share their latest research in the form of articles, reviews, letters, messages, and scientific articles. The submitted manuscripts should not have been published before or considered for publication elsewhere.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
