

Special Issue

Polymer Materials for Energy Storage and Harvesting

Message from the Guest Editor

This Special Issue, entitled “Polymer Materials for Energy Storage and Harvesting”, focuses on the innovative development and application of smart and functional polymers in energy storage and energy harvesting technologies. These materials play a crucial role in advancing energy storage systems, energy conversion, and harvesting solutions. Topics of interest include polymer-based batteries, supercapacitors, nanogenerators, and related energy-harvesting devices. Emphasis is placed on the design, synthesis, and performance enhancement of these polymers to meet the growing demand for sustainable and efficient energy technologies. We invite contributions that explore novel materials, mechanisms, and interdisciplinary approaches to address global energy storage and harvesting challenges.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für
Polymermaterialien und Polymertechnologie, Universität Potsdam,
Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
