# Special Issue

# Polymers: Application in Cancer Nanotheranostics, Especially Drug Delivery

# Message from the Guest Editors

It is a great pleasure to present this Special Issue, "Polymers: Application in cancer nanotheranostics, especially drug delivery". Nanotheranostic platforms using different nanoparticles to perform diagnostics and treatment have become a potential approach for future cancer management. The coating of nanoparticles with polymers seems essential to serve nanoparticles' biocompatibility and drug-loading properties. We also aim to show the critical role of polymers in drug delivery systems as a cancer therapeutic strategy. Other therapeutic approaches can include magnetic hyperthermia, radiation therapy, and photothermal therapy using polymeric nanoparticles. This Special Issue of *Polymers* is dedicated to the applications of polymers in cancer nanotheranostics, especially drug delivery. We invite researchers to submit papers aiming at the development of nanoparticles using polymers in cancer diagnostics, such as Raman spectroscopy, magnetic resonance imaging, computed tomography, magnetic particle imaging, and therapeutics. The submission of subdiscipline-specific reviews is also welcome.

## **Guest Editors**

Dr. Marzieh Salimi

School of Physics and Astronomy, University of Exeter, Exeter EX4 4QL, UK

Dr. Shreyas Kuddannaya

Department of Neurology, Miller School of Medicine, University of Miami, Miami, FL 33136, USA

### Deadline for manuscript submissions

closed (20 February 2024)

# **About the Journal**

# Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

#### Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

## **Author Benefits**

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.
