Mechanical Behavior of Polymers: Processing and Characterization

Message from the Guest Editors

This Special Issue on the “Mechanical Behavior of Polymers: Processing and Characterization” is devoted to presenting the current status and progression of knowledge regarding the properties of polymer-based materials produced by different technologies. Both original contributions and comprehensive reviews are welcome. The Special Issue aims to investigate all kinds of polymeric materials, including but not limited to, their mechanical properties, production, etc.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
