

Special Issue

New Insights into Fiber-Reinforced Polymer Composites

Message from the Guest Editors

In recent decades, the research and development of Fiber-Reinforced Polymers (FRPs) have attracted worldwide attention, particularly in the field of marine infrastructures. Despite the comparable or even superior merits of FRPs in comparison to steel materials, the fundamental research and practical application of FRP composites remain relatively scarce. In recent years, there has been a notable increase in the use of FRPs in practical structural and infrastructural engineering, with the potential to advance construction technology, enhance structural performance and improve structural longevity. To further promote the widespread application of FRP composite structures towards durable, sustainable and resilient infrastructures, it is imperative to undertake more collaborative efforts. Accordingly, we welcome submissions for a Special Issue entitled “New Insights into Fiber-Reinforced Polymer Composites”, to be published in *Polymers*.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
