

Special Issue

Polymer Nanocomposites in Future Biomedical Application

Message from the Guest Editors

This Special Issue, "Polymer Nanocomposites in Future Biomedical Application", will collect innovative original research and review papers that focus on the scientific discussion and practical applications in the field of functional polymer nanocomposites. Examples of acceptable research topics are: (a) drug delivery, (b) tissue engineering, (c) biomaterials, (d) nanotechnology chemistry, (e) sensing, and (f) other functional bioapplications. Topics of special interest include but are not limited to the preparation, chemical synthesis, structural design, material selection, characterization, morphology, and applications of advanced polymer nanocomposites. We hope that this Special Issue will promote academic research exchange, as well as identify and respond to the tremendous challenges currently faced in this burgeoning field.

Guest Editors

Dr. Shang-Hsiu Hu

Dr. Wen-Hsuan Chiang

Prof. Dr. Hui-Min David Wang

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
