

Special Issue

Polymer-Based Dielectric Composites

Message from the Guest Editor

Polymer-based dielectric composites have important application prospects in the electrical and electronic and energy-storage industries. This Special Issue of the open access journal *Polymers* aims to collect cutting-edge original research papers and reviews on the topic of “Polymer-Based Dielectric Composites”, comprising novel approaches or applications, novel polymer synthesis, novel structure design and development of flexible polymer-based nanocomposite dielectric materials, ferroelectric polymer-based nanocomposite dielectrics, energy storage materials, high-dielectric-constant-low-dielectric-loss polymer composite dielectrics, including thin/thick film, coating of resin, etc. It aims to provide a platform for international scholars engaged in research on polymer-based dielectric composites to display and exchange the latest research results, and to promote the deepening of dielectric theory and application research in academia. A special **700/1100 CHF discount** will be available for submissions before **10 August 2022**. If **more time** for submission is **needed**, Please contact me or assistant editor of the special issue: shelly.gu@mdpi.com.

Guest Editor

Dr. Weiwei Cui

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
